Revenue by Supplier

Stock In vs Stock Out

Revenue vs Expenses

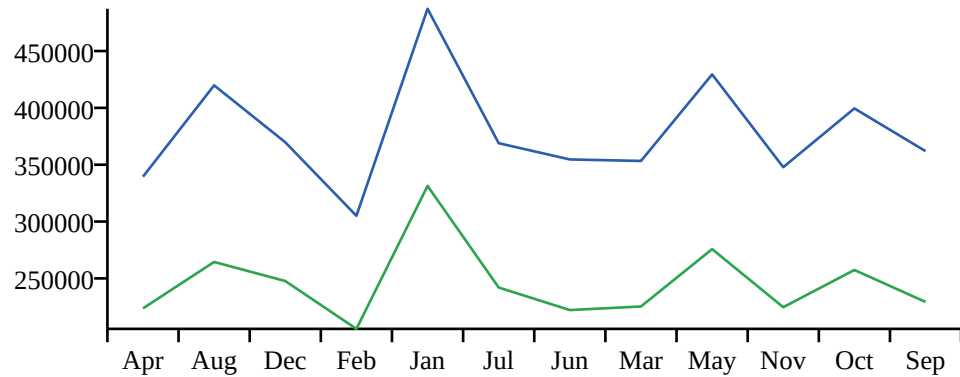

Executive KPI Summary

KPI	Value
Total Revenue	■4,536,842
Total Profit	■2,949,228
Total Expenses	■1,587,614
Profit Margin	65.0%
Units Sold	15,040

Key Insights:

- The business generated strong annual revenue with a highly profitable operating structure.
- Profit margin of 65% indicates excellent financial efficiency and pricing strategy.
- Inventory movement remains balanced with stable monthly operational flow.
- Dashboard supports executive-level monitoring and decision-making capabilities.

Revenue & Category Performance Analysis

Performance Analysis:

- Revenue trends remain stable across most months, demonstrating business consistency.
- Profit growth follows revenue growth efficiently, indicating strong operational control.
- Electronics and Clothing categories contribute the highest share of total revenue.
- Category diversification reduces dependency risk and improves market stability.

Inventory & Supplier Intelligence

Inventory Insights:

- Stock In and Stock Out trends indicate healthy inventory turnover.
- No major overstocking or shortage patterns observed.
- Inventory planning aligns effectively with product demand trends.

Supplier Performance:

- TechCorp and OfficePro contribute significantly to overall revenue generation.
- Supplier diversification improves operational resilience.
- Supplier-level analysis supports procurement optimization and cost management.

Strategic Recommendation	Business Impact
Predictive Inventory Forecasting	Reduce stock shortages and excess inventory
Supplier Scorecards	Improve procurement efficiency
Dynamic Pricing Strategy	Increase profitability
Automated BI Reporting	Faster executive decision-making

Conclusion & Professional Business Impact

Project Conclusion:

The Inventory Performance Dashboard successfully transforms operational and financial data into actionable business intelligence insights. The dashboard demonstrates professional-level analytical capabilities through KPI monitoring, inventory analysis, supplier evaluation, and strategic reporting.

Business Value Delivered:

- Enhanced visibility into revenue and profitability trends
- Improved inventory management analysis
- Better supplier performance monitoring
- Executive-level business intelligence reporting
- Strong foundation for future Power BI and SQL integration

Skills Demonstrated:

Data Analytics • Business Intelligence • Dashboard Design • KPI Reporting • Inventory Analytics • Strategic Decision Support
